

Directions

If you are traveling from Broken Hill you need to turn at the roundabout on Williams Street near the Holden dealership and take the road to the Village of Silverton. You need to then travel for 25 kilometres to reach Silverton.

You then travel along the main road through the village of Silverton to Umberumberka Reservoir for another 16 kilometres. The tar road ends at Umberumberka and you then need to leave the end of the tar road and travel on the gravel road called the Wilangee Road to get Eldee Station which is 19.6 kilometres until you reach the Eldee Homestead.

Remember to keep the Barrier Ranges on your right hand side on the dirt road. Turn right immediately after travelling through the large gum creek and your accommodation facilities are located on the right just 400 meters from the Wilangee Road.
